

Poker Points

- 1: Easy; essentially done; minimal effort.
- 2: Easy+ ; have the information/research; just need to do work
- 3: Over Easy: don't have all information, but will be a 2, once I do; still quick
- 5: Medium: lack of research, not trivial, and the work will take some time.
- 8: Medium+: requires much research; lots stack-overflow; to even begin working
- 13: Hard: very little information on topic or/and it is known that it will take much work.
- 21: Expert: No information; could take over a week to do; many moons; probably not going to work; testing is hard.
