Release Plan

Document Name: Release Plan
Product Name: Adult Friend Locator
Team Name: Adult Friend Locator
Release Date: January 22, 2017
Revision Number: 1.1.0
Revision Date: March 3, 2017

High Level Goals
1. Allow Adults to share their locations with other adults.
2. Maintain a session of locations and directions, for different applications.
3. Create a nice user interface.

User Stories for Release:

Sprint 1:
1. [2] As an adult with friends, I want to be able to access this service through a nice adult-oriented framework.
2. [5] As an adult with friends, I want to be able to create an account to connect with my adult friends, for convenient communication capabilities.
3. [5] As an adult with friends, I want to be able to easily share my location with my friends.
4. [5] As an adult with friends, I want to be able to find individual users on the app so I can get their location and find them in the real world
5. [5] As an adult with friends, I want to be able to quickly and easily see my adult friends location while on the move.

Sprint 2:
1. [3] As an adult with friends, I want to be able to control {who sees my location, which
2. adults can access/request my location, which adults I send my current location}, because I don't like some of my adult friends and do not wish for them to know where I am.
3. [8] As an adult with friend, I want to be able to attach messages with my location sharing.
4. [3] As an adult with friends, I want to be able to receive notifications on people's locations.

Sprint 3:
1. [13] As a adult with friends trying to find their friends, I want the app to help me find them visually or on the app map because I'm directionally challenged
2. [5] As an adult with friends, I want to be able to broadcast my location to all adults on my friends.
